Bride's Name: _____

Wedding Date: _____

Customer Information

Last Name, First Name: _____

Measurements:

Bust: _____

Waist: _____

Hips: _____

Height: _____

Special Instructions:

How to Measure

1. **Bust**
Measure around the fullest part of the bust, keeping the tape measure parallel to the floor.
2. **Waist**
Measure the nature waistline. To find natural waistline, bend to the side as if doing a stretching exercise. Place finger in fold.
3. **Hips**
Measure 8" below the waist to find the fullest hip. Measure around the hip, keeping the tape measure parallel to the floor.
4. **Length**
In some cases, additional length may need to be added.

We recommend your measurements be taken by a professional seamstress or tailor. If your measurements fall between sizes, consider the larger measurements first, as well as the style being ordered. It is usually easier to take the garment in rather than let it out when altering.
